MAIN FEATURES

The ShredPro Orca is the ideal ecological and economical solution when it comes to packaging material. It transforms used cardboard into flexible packaging material, avoiding the use of plastic, reducing waste and saving on purchases of new packaging material. The ShredPro Orca simultaneously cuts and perforates corrugated cardboard to create high-quality packaging material. This will help to save costs, time and to protect the environment. Last but not least, recycling cardboard reduces the environmental impact of some industrial activities in the warehousing industry for shipping and receiving goods.

TRANSFORM USED CARDBOARD BOXES into packing and cushioning material or as a filling material for safe deliveries of any product.

ADJUSTABLE CUSHIONING VOLUME of the output through a specifically designed tension system.

ADJUSTABLE WORKING WIDTH AND SCALE enabling the user to optimize the measure of the packaging material according to the sizes of the boxes.

LATEST TOUCH SCREEN TECHNOLOGY: touch screen keypad and LED load meter indicating the workload on the machine.

HOURLY METER to help keep records of scheduled cleaning, maintenance and usage time intervals.

LOW NOISE LEVEL on a 24-hour continuous duty operation

SUPER POTENTIAL POWER UNIT: chain drive system with steel gears.

CARBON HARDENED STEEL CUTTING KNIVES to rip through cardboard with ease
